## Setting Up PowerMic Mobile on Your Smartphone

PowerMic Mobile allows you to use your iPhone or Android smartphone as a secure, wireless microphone for dictation. To get started, view this email on your mobile device and follow these steps:

1. **Download**
  - **iPhone:** (Requires iPhone 5 and iOS 8.0 or greater): [Click here to download the iOS app](#)
  - **Android:** (Requires Android 4.0 or greater): [Click here to download the Android app](#)
2. **Configure**
  - **iPhone:** Once you have downloaded the app, **copy/paste the following link into your phone browser** (e.g., Safari) to configure the application:  
<dmic://config?NmsToken=OEZFRDNEQ00tNjIzNi000TEwLUFGNjktRTc3RkQxQTRCNDMw>
  - **Android:** Once you have downloaded the app, tap the following link from your smartphone to configure the application:  
<http://config?NmsToken=OEZFRDNEQ00tNjIzNi000TEwLUFGNjktRTc3RkQxQTRCNDMw>
3. **From your computer, log in to Epic and click the **Dragon Login** button on the **Hyperspace** toolbar**

4. **On your smartphone, log in to the PowerMic Mobile app using your Houston Methodist network ID and password. The app should automatically pair with your open Dragon session.**
5. Tap the microphone button to begin and end recording.
